FDR Sentinel X — Quick Guide

How to use the dashboard. Open it at `fdr-sentinel-x.vercel.app`

What is an FDR?	A Fixed Deposit Receipt. Colleges put money in a bank and give AICTE the FDR as a security deposit.
What goes wrong?	Fake FDRs, the same FDR shown by two colleges, or the deposit closed early in secret.
What the app does	Reads the FDR, asks the bank if it is real, has the bank lock it for AICTE, and gives a QR receipt anyone can check.

The 4 steps every FDR goes through

1 Add the FDR
Upload a scan or photo. The app reads it.

2 Bank confirms
The bank says it is genuine.

3 Bank locks it
Locked for AICTE, so it can't be closed early.

4 Give QR receipt
A signed receipt anyone can scan.

Screens and what to do

SCREEN	WHERE	WHAT TO DO
MAIN MENU		
Home	`Menu`	See how many FDRs need you. Click an item in **Your to-do list** to fix it.
Add an FDR	`Menu`	Upload a photo, scan or PDF (or try a sample). Check the yellow fields, then **Save FDR**.
Needs attention	`Menu`	All problems, most urgent first. Read **What to do**, then click **Open FDR**.
All FDRs	`Menu`	Search or filter (Needs action / Waiting for bank / Safe). Click a row to open it.
An FDR's page	`All FDRs → row`	Follow the progress bar. Press the next button: **Ask to confirm** → **Ask to lock** → **Give QR receipt** → **View receipt**. Record **Looks genuine** or **Investigate**.
MORE TOOLS (FOLD-OUT AT THE BOTTOM OF THE MENU)		
Bank view (demo)	`More tools`	Act as the bank: **Genuine**, **Details differ**, **Not found**, **Mark lien**. Opens in a new tab. Use **Back to dashboard** to leave.
Check a receipt	`More tools`	Upload a photo, use the camera or paste a link. Shows if the receipt is genuine.
Maturity dates	`More tools`	FDRs ending soon or overdue. Remind those colleges to renew.
Return a deposit	`More tools`	Checklist before giving an FDR back. Every item must be **Done**.
Duplicate map	`More tools`	Circles are FDRs; a line means they match. Click a circle to open it.
Activity log	`More tools`	Every action, chained. **Check nothing was changed**; demo with **Simulate tampering**, then **Restore**.
Demo test cases	`More tools`	**Inject test cases** to add fake problem FDRs and watch them get caught. **Remove test records** after.
OTHER		
QR receipt	`FDR page`	**Download image** to save it, **Check it** to verify.
Profile / Settings	`Top-right name`	**Sign out**, theme and preferences. **Clear local data** to start fresh.

Status labels

Safe	Confirmed and locked. Nothing to do.
Safe · matures soon	Remind the college to renew.
Waiting for bank	Asked the bank, no reply yet.
Needs action	A problem was found. Open it.
Bank problem	Details differ or not found at bank.
Closed at bank	AICTE is no longer protected.
Returned	Given back to the college.

5-minute demo

0:00	**Home** — explain the problem.
0:30	**Add an FDR** → Phone photo sample. Save.
1:30	**Add an FDR** → Duplicate sample. It gets caught.
2:15	**FDR page** → Ask to confirm; in **Bank view** press Genuine and Mark lien.
3:15	**Give QR receipt**, scan it with a phone, then "Try to fake it".
4:15	**Activity log** → Simulate tampering → caught → Restore.

Good to know

- **All data is made up.** No real colleges, banks or deposits.
- **Each browser keeps its own copy.** What you add on your laptop won't show on another device.
- **Bank view syncs only with tabs in the same browser.**
- **Start over:** Settings → Clear local data.
- **Prototype:** the bank is simulated and the receipt key is a demo key.
